High Levels of Learning for Each and Every Student

Zinser Elementary

Annual Education Report (AER) Cover Letter

6/13/2014

Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER) which provides valuable information on the 2013-2014 educational progress for Zinser Elementary. The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about student assessment, accountability and teacher quality. If you have any questions about the AER, please contact Ross Willick (building principal) for assistance.

The AER is available for you to review electronically by visiting our district's website at www.khps.org. You may also receive a hard copy from the office by contacting your building principal.

The state has identified some schools with the status of Reward, Focus or Priority. A Reward school is one that is outperforming other schools in achievement, growth, or is performing better than other schools with a similar student population. A Focus school is one that has a large achievement gap in 30% of its student achievement scores. A Priority school is one whose achievement and growth is in the lowest 5% of all schools in the state.

Our school has not been given one of these labels at this time.

At Zinser there are some key challenges based on data that we are striving to overcome. The needs assessment shows growth needed in the areas of math and science, as well as closing achievement gaps. The key initiatives that we are adding include or school and districts work towards a change in the system to have a performance based system that allows students to work in a student-centered atmosphere at their own pace. For the 2014-15 school year we will be implementing this in math. Zinser will also be adding 30 more minutes of math instruction each day. We are also expecting students in grades 2-5 to do daily fraction or decimal work, as our fall MEAP data suggests a strong deficit in these areas. Zinser teachers are studying purposeful talk ("Opening Minds" by Peter Johnston) for more student inquiry and discussion. We feel this will help in all areas, including math and science. We also plan on increasing Discovery Education usage with science lessons. Our Multi-Tiered System of Support will continue to improve to help close the gaps with student learning. For the 2014-15 school year, we are implementing a hybrid method of student intervention and support that involves some one on one intervention with 1st graders in reading and math.

State law requires that we also report additional information. Copies of grade level curriculum are available on our district website at www.khps.org. You may also receive a hard copy of a specific grade level's curriculum from the school office. Our school improvement plan involves all staff members continually working on providing a learning environment that allows for high levels of learning for every student. We use data from local, state, and national assessments to drive instruction to impact student learning. Copies of our school improvement plan are also available on our webpage or by request from the school office. Parent involvement is essential to the success of our school and student learning. In the 2013-2014 school year, we had over 96% of our parents attend parent teacher conferences.

The Teacher Quality Data Report indicates that 0% of our teachers are teaching with an emergency certification. This percentage reflects teachers that are updating their qualifications by adding a new area they are qualified to teach, or are in the process of renewing their certificate. All teachers at Zinser Elementary are highly qualified and hold current certifications to teach our students.

We are very proud by the efforts the staff and community continue to make to help improve the learning for each and every student at Zinser Elementary. Our community continues to play a vital role in the success of our school. As your principal, I will be committed to help build on the success we have achieved and strive to help this building reach to new levels of success in the future. Zinser Elementary will have a growth mindset for continuous improvements.

Sincerely,

Ross Willick
Principal
Zinser Elementary
